

Preview for the New Leadership Course

Monday, 07 July 2008

I'm developing a new, online video-based leadership improvement course. It will eventually include:

- * Learning the 6 Key Elements of the leadership development process, with text, video, & interactive learning exercises.

- * Access to a constantly-growing library of articles, reports, and recommended resources available only to members.

- * Your own copy of the new ebook, "Becoming a Better Leader".

The course is being developed from more than 20 years of research, academic study, teaching, coaching, mentoring, and personal experiences. It will include anecdotes and experiences of others who have spent years developing and improving their leadership skills and abilities. There will also be insights from well-known experts in the field of leadership development.

As soon as I have a bit more information, I'll gladly let you know about it. Check back here for updates and more details.
